

## ▼ **The Slung! Backgrounder**

- Slung! makes light work of heavy doors.
- We are a custom crafter of high-end, large and heavy, glazed, exterior doors and movable wall systems.
- Leading technical and design expertise is centralized nationally in order to satisfy the highest architectural and design requirements while production quality and the time table of our end users are met through Regional Assembly Locations that craft all Slung! custom installation assemblies.
- Our growing and dedicated network of Slung! Registered Agents and Slung! Installation Partners ensures the highest standards of sales, installation and service with rapid personalized attention.
- Innovation and design talent resides with our investment in dies, tools, equipment and quality assurance systems where economies can best be generated and yet, we also deliver regionally responsive assembly and local installation services.
- Economies and efficiency in freight, quality assurance and client response is complimented by sourcing glazing and the provision of site service and installation locally through Slung! Installation Partners.
- National marketing; regional assembly and local service...the Slung! formula to exceed expectations.
